

Dear Beach User,

I would like to invite you to the **Human Chain** information event on Teignmouth beach on **Saturday 8th February at 11am**. Meet at East Cliff by the Yacht Club.

We will form a human chain to mark out the position of the new concrete sea wall being proposed by Network Rail. The dimensions have been provided by Network Rail and will be accurately marked out by an architectural technician. A drone will be photographing the event and we expect a lot of press coverage.

As a local resident, I feel it is of utmost importance to attend this visually powerful event as it will show a true representation of how much beach will be lost and help to provide everyone with a fair view of the proposals.

I hope to see you there, thank you for your support!
